GLYPH 1

YOUR SPACE TRANSFORMED

GLYPH 2

LOUNGE OR BAR BACKSPLASH

Sky and water, prairie and cityscape: the color and forms of Heather's environs, past and current, inspire her compositions. Whether evoking a verdant garden, a letter form, or a floating droplet, Heather's mosaics feature fragments of patterns and invite the viewer to contemplate the larger whole.

Each unique 8" x 8" glass mosaic is hand-cut by Heather in her Evanston studio and comes ready to be installed within a background of surround tile or displayed as is. The mosaics offer unlimited flexibility: they can be positioned in any orientation, used singly or in multiples, and displayed within or across palettes and series. Heather's mosaics bring singular style to daily life.
